Dear Valued Customer:

We are pleased to acknowledge Communication Systems International, Inc. as a 5 Star Solution Provider of AT&T's business communication products and services. CSI, Inc. was selected to become an AT&T 5 Star Solution Provider because of its demonstrated experience, capabilities and qualifications.

As a valued representative of AT&T's retail business products and services, CSI, Inc. is equipped to determine effective solutions for your business. CSI, Inc. has access to the training and the necessary tools that support its ability to provide a comprehensive analysis of your firm's communication requirements.

An AT&T Solution Provider has a direct link to AT&T's network services and their required technical support. Don't confuse a Solution Provider with resellers in the telecommunications market. CSI, Inc. has the expertise to apply AT&T provided network technology to your firm's unique requirements, helping it to benefit from AT&T network power, today and into the future.

If you have any questions regarding AT&T Solution Providers and how they can help identify your business needs, please contact our AT&T Channel Account Manager, Paul Weber at (608)249-9152.

Sincerely,

A handwritten signature in black ink that reads "Mark A. Venuto".

Mark Venuto  
Regional Vice President
